Subject: FW: question

Naeha-

Are you able to track down the below order? It is allegedly Arcelor Mittal's release for oil in their intake.
Mike

Tom-

That is not long enough to be a docket number – could you provide the document itself?

Subject: RE: question

I am looking at old files right now Mike. It appears we had, a May 26th, 1992 Consent Decree with Region V that dealt with oil leaks to the No. 2 intake channel from a previous oil lagoon situated next to the intake. The USEPA contact was a Ms. Debra Klassman.

Subject: question

Tom-
Could you please let me know what agency required ArcelorMittal to install the plates at outfall 009 and 010. And who at the agency you worked with?
Also could you please send me the information you have regarding the environmental release you told me that arcelor mittal had in regards to their intake?
Thank you

Mike Beslow
